SUBJECT: Nintendo Switch

There is a misconception throughout general population regarding the approval to purchase a Nintendo Switch gaming system. For clarification, purchase of the Nintendo Switch is not approved for **DRCI**.

The gaming system was originally part of a fundraising activity at several institutions. Fundraisers were required to be sponsored by a recognized club within the department. AIC's that have purchased any gaming system at other institutions through an approved fundraiser could keep and use the gaming system at DRCI.

Additionally, per directive all purchases of electronic gaming systems are put on hold until further notice.
