### Electronic Health Records Update

Health Services is excited to share that work on the Electronic Health Records (EHR) project continues to make great progress. The EHR Project Team has been working with the EHR software company using a process called configuration. Configuration is important because it makes sure that all important information, forms, and processes will be used when DOC transitions to the new EHR system. Health Services will continue to provide updates to you about the EHR project and important milestones as we reach them.

### PREA Related Grievance & Discrimination Complaint Process Improvements

Effective August 1, 2024, a grievance or discrimination complaint related to a claim of sexual abuse or sexual harassment will be immediately subject to investigation that is outside the Department's administrative remedies process. However, the Grievance Review System (OAR 291-109) and Discrimination Complaint Review System (OAR 291-006) can still be utilized to report PREA allegations. PREA allegations raised through these administrative review systems will receive a return receipt indicating the allegation has been received and forwarded to your institution's PREA Compliance Manager (PCM) for investigation and will include information on how to initiate PREA advocacy services. No further response or appeal will be provided through these administrative review systems. All further inquiries and communications about the PREA allegation(s) need to be sent to your institution's PREA Compliance Manager. In addition, there are many other ways to report a PREA allegation: In person to any staff - Through an AIC communication form - Call the Inspector General's Hotline - Pick up handset, make language selection, and dial "91" - Write to the Governor's Office - State Capitol, Room Suite 254, 900 Court St., Salem, Oregon 97301 - You can request to remain anonymous - Friends or family can report on your behalf (877-831-0389).
