- Start on your stomach, with your forehead on the floor, legs extended, ankles hip-width distance apart, and the tops of feet touching the floor.
- Place your hands by your side, backs of your hands on the floor.
- Exhale as you lower your body back to starting position.
- Repeat five times, concentrating on each inhale.

## COVID-19 Vaccine and Booster Dose Update – March 2024

The COVID-19 virus is still present in our institutions and communities, and vaccines continue to be the safest and most effective way to protect from COVID-19 infection. The Centers for Disease Control and Prevention (CDC) has authorized another vaccine booster series for COVID-19. Health Services will be approaching all individuals to inquire if vaccination is desired. If you do not wish to be vaccinated, or receive boosters, you can opt-out.

COVID-19 Booster Vaccines will be offered to those patients that are 65 years of age and older, as well as to patients who may be immunocompromised. These patients should receive two doses of Spikevax (Moderna) 23-24 vaccine to be up to date in vaccines. If you are under 65 years of age, are not immunocompromised, and have already received your COVID-19 Spikevax (Moderna) 23-24 vaccine – you are up to date on your vaccines and do not need another. If you have not received your COVID-19 Spikevax (Moderna) 23-24 vaccine, and you want it, please send a kyte to medical to receive it.

If you have questions, contact your health care provider.

## AIC Message

### Changes to the Loss of Privilege (LOP) Rule

Since January of 2023, the Department of Corrections (DOC) has seen an increase in violent offenses carried out by adults in custody (AICs). In an effort to change this trend, beginning June 1, 2024, changes to the Prohibited Conduct and Processing Disciplinary Actions rule (OAR 291-105), and the Major Violations Grid will take effect. If you commit a major violation, your loss of privileges time may be extended.

#### In Summary:

The maximum Loss of Privileges (LOP) for *level one* violations increases from 28 days to 60 days. The maximum sanction for *level two* violations increases from 28 days to 45 days. These changes may affect the time needed to be eligible for the next incentive level.

#### Examples (in accordance with DOC administrative rule, (OAR 291-077-0035, Appendix B):

In order to move from level 1 to level 2 incentives, you will be required to have:

- 180 days in a row without a major misconduct, AND
- 90 days in a row without a program fail.

In order to be eligible to move from level 2 to level 3 you will be required to have:

- An additional 365 days without a major misconduct, AND
- 90 days without a program fail.

All disciplinary sanctions need to be completed before an AIC can begin to earn the next higher incentive level.

---

Adults in custody, friends and family, advocacy groups, and others:

There has been a substantial increase in substance-infused paper arriving at Department of Corrections (DOC) facilities. Paper and envelopes infused with narcotics, as well as narcotics hidden within them, pose a health and safety risk to adults in custody (AICs), DOC employees, and US Postal Service employees.

The Department of Corrections periodically proposes changes to its administrative rules for operational or other purposes. Among the several rules currently being reviewed is 291-131 related to mail, which proposes:

- Limiting the type of envelopes, paper, and the use of certain materials related to incoming mail;
- Aligning the rules with statutory requirements for the processing of AIC mail with the Corrections Ombudsman;
- Removing gendered language and adding clarifying language consistent with other department rules.

A Public Hearing on proposed changes will be held September 16, 2024, at 1:00 p.m. with a comment period open now through September 25, 2024, at 5:00 p.m.

For more information, visit the DOC website, Department of Corrections : Administrative Rules : Rules and Policies : State of Oregon and more specifically, the 291-131-mail-updated.pdf (oregon.gov) page.

## Electrolytes

Food Services has started to provide electrolyte water in most institutions on hot days.

Adequate hydration is essential for overall health. Water is necessary for virtually all body functions. Both electrolyte and regular water count towards your daily fluid needs, as do other beverages such as coffee, tea, fruit juices, and milk.

It's a common misperception that electrolyte water is better than plain water for hydration. In reality, it depends on the circumstances.

More specifically, electrolyte water may be beneficial if you're at risk for quick losses of minerals. You may want to consider an electrolyte-enhanced drink if:

- You're exercising for more than one hour.
- You sweat heavily during exercise.
- You're sick with vomiting or diarrhea.
- You will be exposed to heat for long periods of time.

One or two electrolyte drinks should be enough for most people to reach a safe and healthy balance after you lose electrolytes from sweat. Outside of sports, hot weather, and illness, plain water works just fine to meet your day-to-day hydration needs.

People with certain medical conditions should limit or avoid electrolyte drinks. The ODOC Dietitian recommends only one serving of electrolyte water daily for most AICs with the following conditions. Talk to your medical provider if you have questions.

**Diabetes** – people with diabetes need to limit how much sugar they have daily, and sports drinks usually contain sugar. The electrolyte water supplied by ODOC contains 9 grams of total carbohydrate per 16 fl. oz. serving.

**Heart Disease or High Blood Pressure** – people with these conditions often need to limit how much sodium they have daily, and sports drinks contain salt. The electrolyte water supplied by ODOC contains 256 mg of sodium per 16 fl. oz. serving.

**Kidney Disease** – people with kidney disease often need to limit how much sodium and potassium they have daily, and sports drinks usually contain both. The electrolyte water supplied by ODOC contains 63 mg of potassium per 16 fl. oz. serving.

FYI: The electrolyte water supplied by ODOC contains 33 calories per 16 fl. oz. serving.

One more thing to consider before having a sports drink: you also get electrolytes from the foods you eat. Electrolytes are found mainly in fruits and vegetables. If you're eating plenty of fruits and vegetables, you're going to meet your basic electrolyte needs unless you do something extra (like exercise) and need to restore what you have lost.

Sports drinks can be an effective way to replenish lost electrolytes after a tough workout or sweating during a very hot day. But these drinks aren't meant to be an all-day beverage.

## Your Health: How the Electronic Health Record (EHR) System Helps Keep Track

This month, we want to talk about how the EHR will help you and Health Services keep track of your health.

**Being Involved in Your Own Care:** It's important to be a part of your own healthcare. This means paying attention to your health, asking questions, and understanding your treatment. Getting involved in your healthcare can make you feel more in control and confident. It can also help lower your anxiety and stress because you'll understand your health better and know what you can do to improve it. When you know what's going on with your health, you can make smarter choices about your treatments, medications, and any changes you need to make in your lifestyle.

**Tracking Health Progress and Trends:** When we start using the new EHR system to keep track of your health, the digital records that replaced the old paper files will help us share information quickly with your healthcare providers. This way, your health info is always up-to-date and easy to access.

**Connecting with Community Providers:** Our EHR system will help us connect and share data with any community healthcare providers you may have, especially upon your release. This means if you need care from a doctor outside, they can also get your health information quickly.

**Population Health:** The new EHR will help us to continue to look at the health of everyone as a group. This helps us see patterns in diseases and health risks. By tracking these patterns, we can better understand and help improve the overall health of everyone in the facility.

**Customized Data Collection:** Our EHR system will be set up to collect data in a way that makes it easy to analyze and to run important reports on specific health information. This will also help us continue to get everyone the care they need.

***Health Services will continue to update you about the EHR Project!***

RE: EHR PROJECT

When you visit your health services providers, sometimes they use short words and or a couple of letters that you may see or hear but don't know what they mean. They use these shortcuts to help them work faster and communicate better.

As the Health Services Division gets closer to using the new Electronic Health Records (EHR) system, we want to review the meaning of some medical abbreviations.

**Here are some common medical abbreviations:**

ABBREVIATION	MEANING	INFORMATION
BP	Blood Pressure	The force of your blood pushing against the walls of your arteries.
HR	Heart Rate	The number of times your heart beats in one minute.
SpO2	Blood Oxygen Saturation	A measurement of how much oxygen your blood is carrying.
NPO	Nothing by mouth	Instructions given to not eat or drink the evening before a blood draw.
A1c	Hemoglobin A1c	A blood test that measures average blood sugar levels over a 3-month period.

**Here are some abbreviations sometimes used in EHRs:**

ABBREVIATION	MEANING	INFORMATION
HIE	Health Information Exchange	HIEs help to facilitate the exchange of data between EHRs
EMAR	Electronic Medication Administration Record	Part of the EHR where we record the medication you are given.
CDS	Clinical Decision Support	Built into the EHR, this tool assists your healthcare provider in making informed decisions about your health.
CPOE	Computerized Provider Order Entry	A provider uses this in the EHR to electronically order treatment services (such as medication or labs) instead of writing the orders on paper.

Knowing some of these abbreviations can help you feel more confident during healthcare visits and stay involved in your own health.

***Remember,*** you can always ask your health provider questions about terms and abbreviations you don't understand!

## Health Information Exchanges (HIEs): Connecting the Dots in Healthcare

Health information exchanges (HIEs) are important because they help healthcare providers, both inside and outside of our institutions, securely share important information about your health if you should need medical care.

### What is a Health Information Exchange (HIE)?

A Health Information Exchange (HIE) is like a digital bridge that connects different healthcare providers and systems.

### How Do HIEs Work?

**Sharing Data:** When you have a healthcare visit, your medical info is put into an electronic file. This file lives in your electronic health record (EHR) which keeps track of everything, from your allergies to your latest checkup.

1. **Secure Access:** Only authorized healthcare providers can access this information; and your health history is safely stored.
2. **Benefits:** HIEs help your healthcare providers avoid mistakes, like giving you a medicine you're allergic to. They also save time—no more faxing or calling for records!

### Why Are HIEs Important?

1. **Quality Boost:** HIEs improve healthcare quality. Your healthcare providers see your full story, not just a chapter.
2. **Efficiency:** Less paperwork means more time for patient care.
3. **Other Benefit:** HIEs help to share your health info with the right people, like providers outside of the institution when you are released.

**Remember, HIEs can create a “big picture” of your health that your healthcare providers use to provide excellent healthcare to you!**

### **Blue Charts, Green Charts and Scanning: What is happening?**

New processes are in place for scanning patient paper healthcare records for ODOC Health Services' upcoming Electronic Health Records (EHR) system. It is important to understand what the new processes mean for your private health information.

**Blue Charts:** Your paper health information is currently being stored in a blue medical chart. Those paper records will be scanned and turned into electronic files for use in the EHR. It is important to know that some people's blue chart will not be scanned if they are scheduled to release before the EHR is turned on.

**Green Charts:** Once your blue medical chart is scanned, a green medical chart will be created. All new health information will be put in your green medical chart.

The green chart always stays with the scanned blue chart, but any new documents will only be added to the green chart.

A few weeks before an Institution's EHR is turned on, our scanning partners will return and scan all documents contained in green charts.

These processes will help make sure your paper health records become part of your electronic health record (EHR).

**Scanning Process:** Our scanning partners have lots of experience—over 55 years! They scan thousands of pages every day. When your paper health records are scanned, the electronic files are stored, protected, and backed-up on hard drives.

**Privacy Matters:** Your health information belongs to you, and your privacy is important.

Throughout the EHR project, patient confidentiality and privacy remain our top priority. Health Services wants to make sure you fully understand that your information is kept safe and only authorized people in health services can see those records.

## **Help Keep the Restrooms Clean**

*Help to make sure the restroom facilities are in working order by not flushing anything other than the toilet paper approved by DOC.*

*Items such as rags, clothing, wipes purchased on canteen, wipes used for sanitizing surfaces, garbage, wrappers, or anything other than DOC issued toilet paper are NOT to be flushed down the toilet or urinal.*

*Items including but not limited to those listed above, are not to be placed in any shower or sink drains.*

Eating a healthy diet is one of many things we can do to improve our overall health. In addition to what we eat, which other actions can we take to be healthy?

- **Maintain a healthy weight.** Eating healthy foods, not snacking too much, and watching how much fat, sugar, and salt we eat will help us maintain a healthy weight. Being at a healthy weight for your height will reduce your risk of getting medical conditions like heart disease, diabetes, and high blood pressure.
- **Be more active.** Both exercise and diet play a part in maintaining a healthy weight. Regular exercise will improve muscle tone, blood flow, balance, and coordination. Being active every day can prevent some diseases. Adults should get at least 2 ½ hours of physical activity every week.
- **Get enough sleep.** There is no perfect number, but most people function best when they get 7 to 9 hours of sleep each night. Getting enough sleep promotes healing, improves brain function, and reduces the risk for chronic diseases.
- **Include mental health in overall health.** A healthy mind can benefit your physical body. Pay attention to your mood. If you have bothersome thoughts that you can't control, or if you feel unusually anxious or on-edge, don't be afraid to ask for help from a mental health professional.
- **Manage stress.** Some of life's stresses are unavoidable. How we deal with stress can affect our mental and physical health. Find strategies to cope with stress that work for you. There are many different options. Ask your doctor for help if stress is affecting you.
- **Don't smoke or vape.**
- **Drink alcohol moderately, or not at all.**

## **NEW HOPE – POWDER PALS PROGRAM**

### **Interested AICs are welcome to apply**

New Hope for Eastern Oregon Animals (New Hope – Powder Pals) partnered with the Powder River Correctional Facility, Oregon Department of Corrections, since early 2011. A key focus of this work has been the ability to provide meaningful work for inmates in training homeless dogs. ## *Informational Briefing*

### *Court Ordered Financial Obligations (COFOs)*

---

#### What are Court Ordered Financial Obligations (COFOs)?

COFOs are financial obligations owed by an Adult in Custody (AIC) assigned during a legal proceeding. COFOs may consist of restitution, fines, fees, child support, or civil judgements including money owed to a victim. *Note: COFOs are not the same as County and U.S. Court Filing Fees.*

#### Why does the Department of Corrections (DOC) collect COFOs?

Oregon Revised Statute (ORS) 423.105 became law in 2017, directing DOC to collect COFOs on behalf of the Oregon Judicial Department (OJD) and the Department of Justice (DOJ).

#### How are COFOs collected?

COFOs are collected from eligible deposits, or deposits that are not protected from debt and obligation collection. Examples of eligible deposits include AIC performance monetary awards (PRAS) and moneys received from an AIC's family or friends.

10% of each eligible deposit is collected until the AIC's transitional savings has reached \$500. After the AIC's transitional savings has reached \$500, 15% of each eligible deposit is collected for COFOs until those obligations are satisfied.

#### Who do I contact if I have questions about COFOs?

DOC is unable to provide case-specific information. AICs with questions or concerns about their COFO details should contact OJD/DOJ or the appropriate court of record.

When you are **45 Days from release**, you will need to contact R&D to make arrangements for your dress outs by completing a package authorization form to have clothing sent in OR by completing a CD28, to ensure you have funds available to purchase clothing from PRCF

The cost for dress outs can be up to \$35 depending on your needs. If you have any questions about the cost for dress out clothing, please kite R&D.

Due to changes to the Inmate Trust accounts you should start thinking about how you will pay for your dress outs. You can pay for dress outs with money in your General Spending account or your General Savings account but Not your Transitional Savings.

### **Prison Rape Elimination Act (PREA Information)**

The Oregon Department of Corrections (ODOC) has a zero-tolerance policy for sexual abuse, sexual harassment and for retaliation for reporting an incident. You may report in person to any staff, through an AIC communication, through the grievance system, by calling the PREA hotline by making a language selection, then dialing 91 from any AIC phone.

### **Filing an Anonymous PREA Report**

If you are uneasy about filing a PREA allegation, you may file an anonymous report with an outside agency.

You may write to:

Governor's Constituent Services Office  
900 Court Street NE, Suite 254  
Salem, Oregon 97301

Please indicate in the beginning of your letter you are filing a PREA allegation, and you are requesting to remain anonymous. The Governor's Office will refer all anonymous allegations to the DOC PREA Coordinator to assure an investigation is completed based off the information that is provided.

### **Opposite Gender Viewing/Announcements**

Opposite gender staff announcement themselves when entering a housing unit by ringing a bell. This must be done any time the status quo of the gender supervision on a housing unit changes (if there is already an opposite gender staff on the unit then there is not needed to re-announce). When you hear the doorbell, opposite gender staff will be entering the housing unit so please make sure you are covered up appropriately.

It is also important you undress in the appropriate locations. If you are in a bunk area, there are cameras throughout the facility so the designated changing/bathroom areas are the only areas you should be without undergarments. Opposite gender viewing may happen incidentally when staff are conducting routine cell checks. You can minimize this by keeping aware of the gender of supervision in your housing unit and ensuring you cover up when possible.

### **Community-Based PREA Advocacy (Support) Program**

ODOC has partnered with community based, confidential advocates of sexual abuse victims to provide services to AICs.

AICs at ODOC who have experienced sexual abuse may reach a community-based advocate by making a language selection, entering your AIC PIN, then press 0\*711 AIC telephone systems, or may request a private call through the PREA Compliance Manager at the facility. Advocates provide victims of sexual abuse information about their options, resources, information, and emotional support. There is no charge for calls to advocates.

The community-based advocacy crisis line is for individuals needing assistance coping with sexual abuse related issues and should not be used for other purposes.

Telephone calls and mail with community-based advocacy centers is considered privileged communication and will be handled like legal calls/official mail. All advocacy calls are not monitored or recorded.

Advocates provide confidential support and crisis intervention, inform you about the investigation and medical examination process, educate you about healing from sexual abuse and offer resources and referrals

Advocates will not tell you what to do, communicate with the institution unless you request them to do so and sign a release and will not provide legal advice.

Community-based advocacy centers provide sexual abuse support to people of all genders. Community-based advocates will not report unless you request them to do so and if you sign a release of information.

Just Detention International Headquarters is a national advocacy resource and can be reached at:

3325 Wilshire Blvd., Suite 340  
Los Angeles, CA 90010

If you have any other questions regarding PREA, you may ask any staff member, write the PREA Compliance Manager at your institution, or you may write:
