#### COVID-19 Vaccine and Booster Dose Update - March 2024

The COVID-19 virus is still present in our institutions and communities, and vaccines continue to be the safest and most effective way to protect from COVID-19 infection. The Centers for Disease Control and Prevention (CDC) has authorized another vaccine booster series for COVID-19. Health Services will be approaching all individuals to inquire if vaccination is desired. If you do not wish to be vaccinated, or receive boosters, you can opt-out.

COVID-19 Booster Vaccines will be offered to those patients that are 65 years of age and older, as well as to patients who may be immunocompromised. These patients should receive two doses of Spikevax (Moderna) 23-24 vaccine to be up to date in vaccines. If you are under 65 years of age, are not immunocompromised, and have already received your COVID-19 Spikevax (Moderna) 23-24 vaccine – you are up to date on your vaccines and do not need another. If you have not received your COVID-19 Spikevax (Moderna) 23-24 vaccine, and you want it, please send a kyte to medical to receive it.

If you have questions, contact your health care provider.

Effective 10/17/2024

Health Services continues to ensure that your paper health records become part of your health record in the Electronic Health Records (EHR) system and our scanning partners are currently scanning any overflow charts that you may have. Overflow charts are your paper health records that date back 6 months or longer. It is important that your overflow records become part of your electronic record because it can help ensure the people who provide medical, mental health, and dental services have the most complete picture of your health history.

Scanning Process: Our scanning partners have been doing this for over 55 years and scan thousands of pages every day. When they scan your paper health records, the electronic files are safely stored, protected, and backed up on hard drives.

Privacy Matters: Your health information belongs to you, and we care a lot about your privacy. During the EHR project, keeping your information private is our focus. Health Services make sure your information is safe and only people who are allowed can see it.

Please remember that your paper health records will be kept safe and stored according to the rules that Oregon Department of Corrections Health Services carefully follows for keeping those records.

We will continue to keep you updated every month about the EHR Project!

RE: Electronic Health Records Update

Health Services is excited to share that work on the Electronic Health Records (EHR) project continues to make great progress. The EHR Project Team has been working with the EHR software company using a process called configuration. Configuration is important because it makes sure that all important information, forms, and processes will be used when DOC transitions to the new EHR system. Health Services will continue to provide updates to you about the EHR project and important milestones as we reach them.

#### Your Health: How the Electronic Health Record (EHR) System Helps Keep Track

This month, we want to talk about how the EHR will help you and Health Services keep track of your health.

Being Involved in Your Own Care: It's important to be a part of your own healthcare. This means paying attention to your health, asking questions, and understanding your treatment. Getting involved in your healthcare can make you feel more in control and confident. It can also help lower your anxiety and stress because you'll understand your health better and know what you can do to improve it. When you know what's going on with your health, you can make smarter choices about your treatments, medications, and any changes you need to make in your lifestyle.

**Tracking Health Progress and Trends**: When we start using the new EHR system to keep track of your health, the digital records that replaced the old paper files will help us share information quickly with your healthcare providers. This way, your health info is always up-to-date and easy to access.

**Connecting with Community Providers**: Our EHR system will help us connect and share data with any community healthcare providers you may have, especially upon your release. This means if you need care from a doctor outside, they can also get your health information quickly.

**Population Health**: The new EHR will help us to continue to look at the health of everyone as a group. This helps us see patterns in diseases and health risks. By tracking these patterns, we can better understand and help improve the overall health of everyone in the facility.

**Customized Data Collection**: Our EHR system will be set up to collect data in a way that makes it easy to analyze and to run important reports on specific health information. This will also help us continue to get everyone the care they need.

Health Services will continue to update you about the EHR Project!

RE: Electronic Health Records (EHR)

#### Health Information Exchanges (HIEs): Connecting the Dots in Healthcare

Health information exchanges (HIEs) are important because they help healthcare providers, both inside and outside of our institutions, securely share important information about your health if you should need medical care.

#### What is a Health Information Exchange (HIE)?

A Health Information Exchange (HIE) is like a digital bridge that connects different healthcare providers and systems.

#### **How Do HIEs Work?**

**Sharing Data**: When you have a healthcare visit, your medical info is put into an electronic file. This file lives in your electronic health record (EHR) which keeps track of everything, from your allergies to your latest checkup.

- 1. **Secure Access**: Only authorized healthcare providers can access this information; and your health history is safely stored.
- 2. **Benefits**: HIEs help your healthcare providers avoid mistakes, like giving you a medicine you're allergic to. They also save time—no more faxing or calling for records!

#### Why Are HIEs Important?

- 1. **Quality Boost**: HIEs improve healthcare quality. Your healthcare providers see your full story, not just a chapter.
- 2. **Efficiency**: Less paperwork means more time for patient care.
- 3. **Other Benefit**: HIEs help to share your health info with the right people, like providers outside of the institution when you are released.

Remember, HIEs can create a "big picture" of your health that your healthcare providers use to provide excellent healthcare to you!

#### **AIC Message**

#### Changes to the Loss of Privilege (LOP) Rule

Since January of 2023, the Department of Corrections (DOC) has seen an increase in violent offenses carried out by adults in custody (AICs). In an effort to change this trend, beginning June 1, 2024, changes to the Prohibited Conduct and Processing Disciplinary Actions rule (OAR 291-105), and the Major Violations Grid will take effect. If you commit a major violation, your loss of privileges time may be extended.

#### In Summary:

The maximum Loss of Privileges (LOP) for *level one* violations increases from 28 days to 60 days. The maximum sanction for *level two* violations increases from 28 days to 45 days. These changes may affect the time needed to be eligible for the next incentive level.

#### Examples (in accordance with DOC administrative rule, (OAR 291-077-0035, Appendix B):

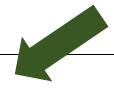

In order to move from level 1 to level 2 incentives, you will be required to have:

- 180 days in a row without a major misconduct, AND
- 90 days in a row without a program fail.

In order to be eligible to move from level 2 to level 3 you will be required to have:

- An additional 365 days without a major misconduct, AND
- 90 days without a program fail.

All disciplinary sanctions need to be completed before an AIC can begin to earn the next higher incentive level.

Adults in custody, friends and family, advocacy groups, and others:

There has been a substantial increase in substance-infused paper arriving at Department of Corrections (DOC) facilities. Paper and envelopes infused with narcotics, as well as narcotics hidden within them, pose a health and safety risk to adults in custody (AICs), DOC employees, and US Postal Service employees.

The Department of Corrections periodically proposes changes to its administrative rules for operational or other purposes. Among the several rules currently being reviewed is 291-131 related to mail, which proposes:

- Limiting the type of envelopes, paper, and the use of certain materials related to incoming mail;
- Aligning the rules with statutory requirements for the processing of AIC mail with the Corrections Ombudsman;
- Removing gendered language and adding clarifying language consistent with other department rules.

RE: HER PROJECT

When you visit your health services providers, sometimes they use short words and or a couple of letters that you may see or hear but don't know what they mean. They use these shortcuts to help them work faster and communicate better.

As the Health Services Division gets closer to using the new Electronic Health Records (EHR) system, we want to review the meaning of some medical abbreviations.

#### Here are some common medical abbreviations:

ABBREVIATION	MEANING	INFORMATION
BP	Blood Pressure	The force of your blood pushing against the walls of your arteries.
HR	Heart Rate	The number of times your heart beats in one minute.
SpO2	Blood Oxygen Saturation	A measurement of how much oxygen your blood is carrying.
NPO	Nothing by mouth	Instructions given to not eat or drink the evening before a blood draw.
A1c	Hemoglobin A1c	A blood test that measures average blood sugar levels over a 3-month period.

#### Here are some abbreviations sometimes used in EHRs:

ABBREVIATION	MEANING	INFORMATION
HIE	Health Information Exchange	HIEs help to facilitate the exchange of data between EHRs
EMAR	Electronic Medication Administration Record	Part of the EHR where we record the medication you are given.
CDS	Clinical Decision Support	Built into the EHR, this tool assists your healthcare provider in making informed decisions about your health.
CPOE	Computerized Provider Order Entry	A provider uses this in the EHR to electronically order treatment services (such as medication or labs) instead of writing the orders on paper.

Knowing some of these abbreviations can help you feel more confident during healthcare visits and stay involved in your own health.

**Remember**, you can always ask your health provider questions about terms and abbreviations you don't understand!

#### **PRAS Revisions FAQ**

#### What's Happening with PRAS Changes?

In 2014, a petition was made to change the PRAS (Performance Recognition Award System) so that awards adjust with cost-of-living changes. The petition had good ideas but was too complicated to handle quickly. So, the Department created a group to look at these ideas and other concerns from people in custody and their families. These included points assigned for work and programming, as well as improving the work history letter you receive at release.

#### **Good News:**

The Department's Executive Team approved changes based on this group's recommendations. These changes will fix some problems with the PRAS rules and make it more consistent. The goal is to improve the system without taking away benefits.

There have been delays because of limited resources, developing new systems, and COVID-19. But work has been going on, and progress has been made. In January 2024, the PRAS system was updated with new tiers and a 25% increase in awards.

#### What's Changing Now?

By August 2024, new names for work assignments have been set up to show the point levels clearly. This will make it easier to compare positions across different facilities. The process of updating current work assignments to these new names started in mid-February and should be done by December 2024.

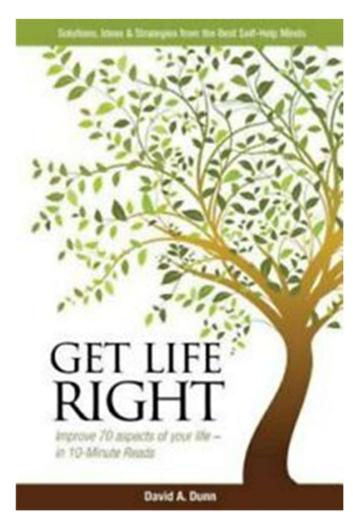

#### What Does This Mean for You?

- Most work assignments will just have a new name, but some may see changes in point levels.
- If your point level changes, the department will keep your current level as long as you stay in the same position.
- If you transfer or leave because of discipline, you'll get the new point level system.
- If you leave for court or medical reasons, your position may be held open. If you don't return in time, you'll start with the new point levels when you get back.

Most people will keep their current point level or get an increase. A catalog of positions and point levels will be available by the end of the year. Thanks for your patience as we make these improvements!

#### A Letter to Your Younger Self

If you were to write a letter to your younger self, what would you say? Would you talk about a difficult experience in your past, or would you encourage yourself to be strong and face your fears? How could your life's challenges serve as an example for positive change?

If you looked at yourself differently when you were young, would it have altered where you are today? Owning your story is an important part of accepting who you are and moving forward. It allows you to take a critical look at the person you are today and identify where you want to be—personally, professionally, and even emotionally. We all make decisions. The moment we choose to act on that decision, we also make the choice to accept the outcome of that decision—good or bad. As you look back on your life, what are some of the outcomes you can identify? Can you put a name or label some of the emotions attached to those outcomes? How did those emotions quide your life's journey?

As you think about his path, what would you tell your younger self? Often in life, we get so focused on the goal that we forget to find meaning in the journey. It is the journey that we fear the most. It can be filled with "what if", self-doubt and struggles we may not want to face. But the journey can also be what we need the most. When we overcome the negative, we find deeper meaning in who we are and the path we are on. We come to understand just how much we can accomplish and just how far we can push ourselves to find success.

I hope that you can look back with pride and find meaning not only in your accomplishments, but also in your failures; because that which you have endured with courage, may not only save your life, but someone else's life in the future.

#### Weekly Quote:

To laugh often and much;
To win the respect of intelligent people and the affections of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty, to find the best in others; to leave the world a bit better whether by a healthy child, a garden patch, or a redeemed social condition; to know even one life has breathed easier because you have lived.
This is to have succeeded.

--Ralph Waldo Emerson—

#### **Prison Rape Elimination Act (PREA Information)**

The Oregon Department of Corrections (ODOC) has a zero-tolerance policy for sexual abuse, sexual harassment and for retaliation for reporting an incident. You may report in person to any staff, through an AIC communication, through the grievance system, by calling the PREA hotline by making a language selection, then dialing 91 from any AIC phone.

#### Filing an Anonymous PREA Report

If you are uneasy about filing a PREA allegation, you may file an anonymous report with an outside agency.

You may write to:

Governor's Constituent Services Office

900 Court Street NE, Suite 254

Salem, Oregon 97301

Please indicate in the beginning of your letter you are filing a PREA allegation, and you are requesting to remain anonymous. The Governor's Office will refer all anonymous allegations to the DOC PREA Coordinator to assure an investigation is completed based off the information that is provided.

#### **Opposite Gender Viewing/Announcements**

Opposite gender staff announcement themselves when entering a housing unit by ringing a bell. This must be done any time the status quo of the gender supervision on a housing unit changes (if there is already an opposite gender staff on the unit then there is not needed to re-announce). When you hear the doorbell, opposite gender staff will be entering the housing unit so please make sure you are covered up appropriately.

It is also important you undress in the appropriate locations. If you are in a bunk area, there are cameras throughout the facility so the designated changing/bathroom areas are the only areas you should be without undergarments. Opposite gender viewing may happen incidentally when staff are conducting routine cell checks. You can minimize this by keeping aware of the gender of supervision in your housing unit and ensuring you cover up when possible.

#### Community-Based PREA Advocacy (Support) Program

ODOC has partnered with community based, confidential advocates of sexual abuse victims to provide services to AICs.

AICs at ODOC who have experienced sexual abuse may reach a community-based advocate by making a language selection, entering your AIC PIN, then press 0\*711 AIC telephone systems, or may request a private call through the PREA Compliance Manager at the facility. Advocates provide victims of sexual abuse information about their options, resources, information, and emotional support. There is no charge for calls to advocates.

The community-based advocacy crisis line is for individuals needing assistance coping with sexual abuse related issues and should not be used for other purposes.

Telephone calls and mail with community-based advocacy centers is considered privileged communication and will be handled like legal calls/official mail. All advocacy calls are not monitored or recorded.

Advocates provide confidential support and crisis intervention, inform you about the investigation and medical examination process, educate you about healing from sexual abuse and offer resources and referrals

Advocates will not tell you what to do, communicate with the institution unless you request them to do so and sign a release and will not provide legal advice.

Community-based advocacy centers provide sexual abuse support to people of all genders. Community-based advocates will not report unless you request them to do so and if you sign a release of information.

Just Detention International Headquarters is a national advocacy resource and can be reached at:

3325 Wilshire Blvd., Suite 340

Los Angeles, CA 90010

If you have any other questions regarding PREA, you may ask any staff member, write the PREA Compliance Manager at your institution, or you may write:
