VOLUME 25 ISSUE 1

January's Zodiac signs are:

Capricorn:

December 22
January 19.

Aquarius:

January 20–
February 18.

WINNING WORDS:

Janus am I; oldest of potentes;

Forward I look, and backward, and below

I count, as god of avenues and gates,

The years that through my portals come and go.

—Henry Wadsworth Longfellow,
American poet (1807–82)

The Month of January

January was named for the Roman god Janus, known as the protector of gates and doorways, who symbolize beginnings and endings. Janus is depicted with two faces, one looking into the past, the other with the ability to see into the future. What a fitting symbol for this first day of the year; this month is our door into the new year. The Romans often made promises to Janus and exchanged good wishes.

History of January

The months of January and February were not originally in the ancient Roman calendar as the winter months were considered dormant, both in terms of agriculture and also in terms of making war. This was a time of peace. Until 450 BCE, the Roman calendar was 10 months, beginning in March (*Martius*), due to the March Equinox. Remember, March was named for “Mars,” the god of War who was also an agricultural guardian.

Weather Folklore for January

- Fog in January brings a wet spring.
- A favorable January brings us a good year.
- If grass grows in January, it will grow badly the whole year.
- A summerish January, a winterish spring.

Have a lovely January and a wonderful start to the year!

January Calendar

January 1 is **New Year's Day**. While you're still recuperating from the prior night's parties, read about some other New Year's traditions you might not know about and celebrate with some Hoppin' John for good luck.

January 5 brings **Twelfth Night**, an English folk custom that marked the end of Christmas merrymaking and, in ancient Celtic tradition, the end of the 12-day winter solstice celebration. On Twelfth Night, it was customary for the assembled company to toast each other from the wassail bowl.

January 6 is **Epiphany**. According to the New Testament's Gospels, on this date, the Magi—the three wise men or kings—venerated and brought gifts to the infant Jesus. Bake a beautiful Epiphany Tart or a King Cake with a lucky bean inside!

January 17 is **Benjamin Franklin's birthday**. He was not only a world-renowned statesman, inventor, and scientist but was also fascinated by agriculture. Here at the *Old Farmer's Almanac*, we consider him the father of almanacs!

January 20 is **Martin Luther King Jr. Day** (observed). This holiday is held on the third Monday in January and honors the principles of this civil rights leader and Nobel Prize Winner dedicated to nonviolence. This year, January 20 is also **Inauguration Day**.

January 29 is the **Chinese Lunar New Year**.

“Just for Fun” Days

January is **National Clean Up Your Computer Month** and **National Hot Tea Month**! Here are some more fun things to celebrate in January:

- **January 1:** Z Day (On this day, those whose last name begins with “Z” get to go first instead of last.)
- **January 3:** National Chocolate-Covered Cherry Day
- **January 6:** National Bean Day
- **January 8:** Elvis Presley’s Birthday
- **January 10:** National Houseplant Appreciation Day
- **January 14:** National Dress Up Your Pet Day
- **January 20:** National Penguin Day
- **January 22:** National Answer Your Cat’s Questions Day
- **January 29:** National Puzzle Day

January Astronomy

Even in astronomy, there is a sense of new beginnings. In the Northern Hemisphere, the days are starting to get longer again, and we look forward to the light’s re-emergence.

Perihelion: Earth Passes Its Closest to the Sun

On January 4, 2025, Earth reaches **perihelion**, which is the point in the planet’s orbit where it is closest to the Sun. At perihelion, Earth will be 91,405,993 miles from our bright star.

The Full Wolf Moon

January’s Moon is called the Wolf Moon. The Saxon word for the month was *Wulf-monath* or “wolf month.”

This year, the full Moon reaches peak illumination on **Monday, January 13, at 5:27 P.M. EST**. It can be seen rising from the horizon around sunset that evening. The Quadrantid Meteor Shower

The Quadrantid meteors appear in the early January sky, producing up to 25 meteors per hour at their peak. They’ll be at their best on the night of January 4 into January 5. For the best chance at spotting them, venture out between midnight and dawn (if you can stand the cold).

January Birthstone

January's birthstone, the garnet, is thought to keep the wearer safe during travel.

January Birth Flower

January's birth flowers are the carnation and snowdrop.

Forgotten Customs: Going Back to Work!

If you enjoy unusual, forgotten, or bygone customs, here are two that traditionally marked the end of the Christmas break when it was time to face the "daily grind." Often, these were "joke" holidays that mixed up the first days back to hard work with some playfulness thrown in.

January 7: Distaff Day

The day after Epiphany (January 6) was once called Distaff Day and marked when the women went back spinning after the 12-day Christmas celebration. A distaff is a wooden rod (staff) that holds flax or wool. Before the Spinning Wheel arrived, spinning was slowly and tediously done on a Drop Spindle. As is often the case, it's hard to go back to work after the holidays and not much got done! The women's husbands would mischievously try to set fire to the flax on their wives' distaffs, while the women, lying in wait, would retaliate with humor by dousing them with buckets of water.

January 13, 2024: Plough Monday

Dating back to the fifteenth century, the first Monday after Epiphany (January 6) marked the start of the agricultural season, specifically for ploughing the fields for spring-sown crops. Of course, not much work was actually done on the first day! Dressed in clean white smocks decorated with ribbons, the men dragged a plow (plough) through the village and collected money for the "plow light" that was kept burning in the church all year. Often, men from several farms joined together to pull the plow through all their villages. They sang and danced their way from village to village to the accompaniment of music. In the evening, each farmer provided a Plough Monday supper for his workers, with plentiful beef and ale for all.

Book of the Month

250.211.HUV.99.002 “Les Misérables” by Victor Hugo

An ex-convict struggles for redemption in the punishing world of post-Napoleonic France, 1832. Crime and punishment, the relentless persecution of Valjean by Inspector Javert, the desperation of the prostitute Fantine, the amorality of the rogue Thénardier, and the universal desire to escape the prisons of our own minds. Hugo portrays his criticism of the French political and judicial systems.

Independent Study of the Month:

The Addictive Brain

Addiction is a modern-day epidemic. More than 500 people die every hour as a result of an addiction-related disease or an overdose, and addiction is estimated to cost the United States more than 600 billion dollars every year in health-care costs, lost productivity, and crime. Families are destroyed, careers are lost, and lives are wasted. And the problem is only getting worse. If we ever hope to stem the tide, it is imperative that we develop a better understanding of what addiction is and how it works at a neural level. Fortunately, scientists have made significant progress in answering these questions in the last few decades. This course will survey this important and exciting field.

From Division OF Labor to Division BY Labor

“When Adam delved and Eve span, who then was the gentleman?” – this quote is about inequality / class divisions. “Gentleman” today means a guy with manners, but it used to mean a man who didn’t work, because he was rich, so he could spend his time doing “gentlemanly” things. But notice the work mentioned: “delved” is tilling soil, but farming is NOT “original” work, it’s the “original sin” of the knowledge of domestication to produce extra food. (“Span” is like “spun” - which is weaving, also not original work.)

Hunting and gathering are the true “original” work but they didn’t result in having “gentlemen.” Women can only “spin” once the food is being produced by others (men/serfs/slaves/peasants) because cloth is a luxury that isn’t food. Farming and weaving are the result of accepting inequality, because “all” men used to hunt and make tools, and “all” women used to gather and farm. But having “most” women weave our visible identities while having “most” men farm resulted in the (few) “gentlemen” who supervised it all but didn’t have to do any real labor work, because they were “better” (or the oxymoron “more equal”) than everyone else.

Eve’s apple represents the change from hunt/gather to herd/farm. Women did the gathering, so it makes sense they’d figure out farming first. But notice the implications: “tempting” men to settle down in one place to farm permanently changed our “mobile” lifestyle. And that changed everything. The more that men farmed (after the domestication of large animals and the invention of plows and such) the more that women weaved. Women had learned how to sew and weave long before, but didn’t have enough time to create much fashion, just basics. When more men farmed and herded, more women were able to make more cloth.

Why do some religions and schools make everyone dress the same? To reduce inequalities.

Why did prestige from fashion become so popular? To show and increase inequalities.

Women got blamed for the “original sin” of domestication with the Adam/Eve Apple story. But women got no credit for what they discovered (farming and weaving), nor did they create the hierarchy and inequalities that resulted. If they had, they’d probably be more in charge...

Making cloth all the time has given us plenty of expressions:

Weave a web of lies. Spin a yarn. Weave it together. Bob and weave. Tapestry of life. Cut from the same cloth. A stitch in time.

Dyed in the wool. Pulling the wool over your eyes. Span of time. Dream Weaver. Tied up. Strung out. Tangled nerves. Velvet touch.

Cotton mouth. Unravelling at the seams. Hanging by a thread. Getting fleeced.

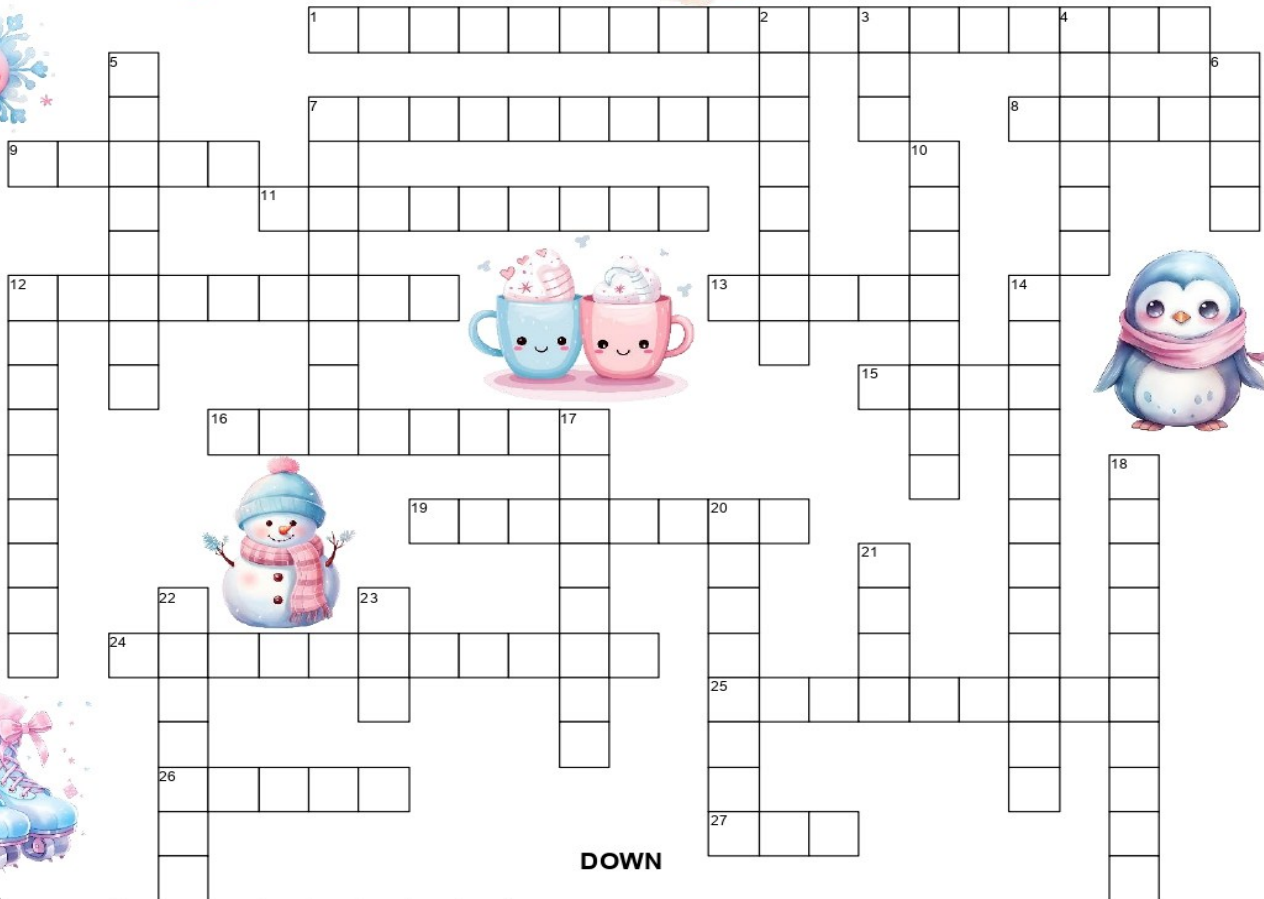

Apparently, women told stories while spinning and weaving...what else was there to do? Well, taking care of kids, cooking, cleaning, fetching water, keeping fires going and all kinds of other things that those who don’t do them can take for granted, or perhaps don’t think about at all.

“Gentlemen” weren’t around until labor became specialized, and eventually women would weave blue collars for the workers, and white collars for the Gentlemen.

This change includes eligibility for work performance reviews and PRAS step increases at set intervals, for most assignments. It is important to note that AICs are responsible for tracking their own time in assignment at each step. PRAS step increases are not automatic; they are discretionary based on time in assignment and performance. The first 90-day point is approaching for many of you. Please make sure to communicate with your supervisor for timely performance reviews.

Community Safety Through Positive Change

PROGRAM BACKGROUND

Research from 1991-95 found that African Americans did not fare as well in the areas of employment, education, career training and financial stabilization as Caucasians. Of the approximately 500,000 Multnomah County [Oregon] residents at that time, 5% were African American. Of the 11,000 offenders on parole, 6% were African American.

African American Offenders re-offended at a rate of 31% while Caucasian Offenders re-offended at 19%. African American parolees were revoked at a rate of 55% while Caucasian parolees were revoked at a rate of 41%. The launch of the program was a direct response to the findings that African American Offenders were over represented in the criminal justice system.

In 1996, the men's component of the AAP started with two Probation/Parole Officers and one Corrections Counselor. The program was designed to service 140 incarcerated adult males. Driven by need, community partners collaborated in 2000 to design an AAP component to service incarcerated adult females as well. In 2003, the women's component of the AAP was launched with one Probation/Parole Officer and one part-time contract counselor to service 60 adult women in custody.

DEPARTMENT OF
COMMUNITY JUSTICE

African American Program

*Our mission is to provide
culturally-specific services
to assist in the successful
transition of African Americans
from prison to the community.*

PROGRAM OBJECTIVES

- **Stop:** Parole violations, criminal activities, domestic violence, drug and alcohol use, cycle of self-defeat.
- **Increase:** Education, vocational training, employment, family stability and community connection.
- **Provide:** Culturally-specific programs and services, HEAT (Habitatation, Empowerment, Accountability, Therapy) for men, and HER (Habitatation Empowerment and Recovery) for women.

ONE CLIENT'S STORY

"...I have 5 1/2 months left on a 7 year sentence. I've heard about your African American Program and I am very interested. ...I am very interested in my culture and would like to become a part of your program not only for myself but also for my children. ...I had a brother who was shot and killed by another black man in a gang related shooting. I feel that it is senseless for people to kill each other, but even more so for blacks to kill other blacks after all we've been through to get to where we are today. And I stress that to the young brothers in here. Some listen and some don't. But if I can reach just one, then it will all be worth it. ...I'm a 39 year old father of 4 and I feel that if I could learn about my past I can help save the future of our young blacks from destruction. I also feel that I could be an asset to the program even after my release..."

TO BE CONSIDERED

- **Eligibility restrictions:** will be reviewed on a case-by-case basis.
- **No:** Sex offenses, clear and persistent mental health diagnosis, or active gang involvement/affiliation.
- Must be supervised in Multnomah County.

HOW TO GET STARTED

- Send your letter with a kyte to: CRCI/AAP/Bruce Douglas
- **Counselor:** Email inmate's full name, SID#, and recommendation to bruce.w.douglas@multco.us

ODOC Pharmacies

ODOC Pharmacies will be making a minor change on the pharmacy label for your medications. It is a small change, but it will be noticeable for some and we want to explain it now to help avoid any confusion. You shouldn't see any difference on medications that are dispensed in capsules or tablets, that will remain the same. However, for tubes, inhalers and other pharmaceutical containers you'll see that the quantity now indicates the number of grams or milliliters that the container holds. Previously if you had received a 30 gram tube of ointment, the pharmacy label would have read "1", indicating that you received one tube of ointment. Now you will see on the pharmacy label that the quantity has changed to "30", the number of grams in the tube. We are making the change because the pharmacies are about to use a new computer program that requires us to record the quantity dispensed in grams and milliliters.

Advocates offer survivors information about the different options available to them and support a survivors' decision-making. Advocates do not tell the survivors what to do advocates are committed to maintaining the highest possible levels of confidentiality in their communications with survivors.

Oregon Department of Corrections has a **ZERO TOLERANCE** policy towards sexual abuse and sexual harassment of incarcerated persons.

Telephone calls and mail with community-based advocacy centers is considered privileged communication and will be handled similar to legal calls/official mail.

If you have any other questions regarding PREA, you may ask any staff member, write the PREA Compliance Manager at your institution, or you may write:

E. Sage, PREA Coordinator
Oregon Department of Corrections

Transport, movement, etc.**Transport**

An individual can be transferred at any time to another facility for a variety of reasons; mandatory-program availability, medical needs, security or bed space issues, etc. For security reasons, transfers are not announced in advance. We understand the impact of distance on yourself and family/friends and encourage you to take advantage of the communication avenues available such as video calls, electronic messaging, mail and telephone in addition to in person visiting.

The Office of Population management coordinates such transfers and is diligent in attempting to optimize movement to meet the various needs. We appreciate your patience in this matter.

Supervised trip

If there is an immediate need due to qualifying conditions, DOC has a process for temporary transfer requests for a supervised trip. As part of the request for a supervised trip, the AIC agrees to pay for the cost of the trip. AIC can make these requests for a private viewing of an immediate family who has passed away (either before or after a funeral), and/or for visitation with a family member who has been diagnosed with a terminal illness and is nearing death (per OAR 291-063-0040).

Requests are made through Security/ISM and must provide documentation to support the temporary transfer. This documentation may include notification of a family member's death or a letter from a doctor that identifies an immediate family member's terminal illness.

The sending and receiving institutions agree on the length of the stay, and the superintendent of the sending facility makes final approval. The AIC returns to the sending facility when the temporary transfer is complete.

For specific case plan needs here at WCCF, please work with your assigned counselor.

For programs outside of WCCF or at other facilities/Institutions:

The Treatment Assignment Screening Committee (TASC) reviews and approves those AIC waiting to enter Alternative Incarceration Programs (AIP), Alcohol and Drug Treatment, cognitive behavioral therapy programs, etc.

INSTITUTION/FACILITY programs:

All programs that are specific to an Institution or Facility complete the screening and select for those programs themselves at the Institution/Facility the program exists.

Release

Release planning and your case plan needs will be coordinated through the release counselor. Transport for release will occur through this process.

Disciplinary/classification

AIC classification changes or disciplinary sanctions may result in transport to a higher classification facility

Food Handlers

Food handler testing the 2nd. And then the next is in march on the 6th. If releasing before the 6th and wanting to test before release you must test at least one month prior to release.

RE: Electronic Health Records
(EHR)

Important Update from Health Services

The EHR Project Team is still working hard to scan all paper medical records into the new electronic health record (EHR) system. This important work helps you and the people who take care of your health at ODOC because your scanned medical records are quickly and easily available.

We wanted to give you this update and share important things to remember:

- *We have now scanned all overflow paper medical records.*

- *For now, you will still have a paper medical chart where Health Services will keep your important health information.*

- *When Health Services starts using the EHR, any remaining paper medical records will be scanned.*

- *You still request medical records the way you always have in your institution.*

The EHR Project Team will continue to keep you updated throughout the project!

Queríamos brindarle esta actualización y compartirle cosas importantes para recordar:

- Hemos escaneado todos las historias clínicas en papel.

- Por ahora, usted seguirá contando con un historial médico clínico en papel donde los Servicios de Salud guardarán su información médica importante.

- Cuando los Servicios de Salud comiencen a utilizar EHR, se escanearán todos los historiales médicos en papel restantes.

- Usted seguirá solicitando historias clínicas como siempre lo ha hecho en su institución.

***El equipo del proyecto EHR continuará
manteniéndole informado durante todo el proyecto.***
