Rather than learning different steps for each social skill, the same four general steps are used to facilitate meaningful repetition of self-control strategies and social skills.

**DATE:** MONDAY, APRIL 28, 2025

**TO:** Adults in Custody

**FROM:** Dustin Hoffman, Distribution Services Statewide Operations Manager

**SUBJECT:** Commissary News, Updates and Reminders

**News:**

The box for the Treva 5" Fan \$12.56 sold on commissary states that a power cord comes with the fan. The ISM's approved the sale of the fan if the cord was removed due to security issues. We do apologize. We have found a vendor that provides an acceptable power cord that is within security's specifications. This is the Clear Fan Adapter Cord that sells for \$10.25 on the commissary form. The fan is also battery powered therefore no power cord needed.

Thank you for your understanding and for always supporting your commissary operations. As we work daily to bring you new items and to keep the AIC welfare fund running.

# Oregon Corrections Enterprises – CAD Department

In the OCE CAD shop, we turn ideas into reality—guiding projects from concept to completion. During quoting, we create 3D models and bills of materials (BOMs) to help clients visualize designs and provide accurate cost estimates.

Using tools like Autodesk Inventor, AutoCAD, 3ds Max, and Adobe software, we produce precise models, technical drawings, and realistic renderings that aid client decision-making. Based on client feedback, we refine designs to meet expectations before producing final shop drawings and production packets.

Each packet undergoes a thorough review to ensure accuracy and manufacturability before being handed off to the metal or furniture shop for production.

Beyond drafting, we work closely with other shops to boost efficiency, minimize errors, and streamline cross-department collaboration—helping the entire organization operate smarter and faster.

## Join the OCE CAD Team - Design. Draft. Build your future.

The OCE CAD Department is seeking motivated AICs to support real-world projects through drafting, cost estimating, and design services for OCE's manufacturing and sales operations. This is a unique opportunity to work in a professional, team-oriented environment, using modern, industry-standard software to produce high-quality work. You'll gain valuable skills that are in demand across multiple industries.

### Preferred Experience:

- Experience with CAD software (AutoCAD/Inventor)
- Background in manufacturing or construction
- Strong collaboration and problem-solving skills

### Minimum Requirements:

- At least 1 year free of major disciplinary action
- Proficiency with Microsoft Office (Word, Excel)

**How to Apply:** Submit an application with a cover letter to **N. Hankland – OCE CAD Department**
