Oregon Corrections Enterprises – CAD Department

In the OCE CAD shop, we turn ideas into reality—guiding projects from concept to completion. During quoting, we create 3D models and bills of materials (BOMs) to help clients visualize designs and provide accurate cost estimates.

Using tools like Autodesk Inventor, AutoCAD, 3ds Max, and Adobe software, we produce precise models, technical drawings, and realistic renderings that aid client decision-making. Based on client feedback, we refine designs to meet expectations before producing final shop drawings and production packets.

Each packet undergoes a thorough review to ensure accuracy and manufacturability before being handed off to the metal or furniture shop for production.

Beyond drafting, we work closely with other shops to boost efficiency, minimize errors, and streamline cross-department collaboration—helping the entire organization operate smarter and faster.

Join the OCE CAD Team - Design. Draft. Build your future.

The OCE CAD Department is seeking motivated AICs to support real-world projects through drafting, cost estimating, and design services for OCE's manufacturing and sales operations. This is a unique opportunity to work in a professional, team-oriented environment, using modern, industry-standard software to produce high-quality work. You'll gain valuable skills that are in demand across multiple industries.

Preferred Experience:

- Experience with CAD software (AutoCAD/Inventor)
- Background in manufacturing or construction
- Strong collaboration and problem-solving skills

Minimum Requirements:

- At least 1 year free of major disciplinary action
- Proficiency with Microsoft Office (Word, Excel)
