Health Services News The Oregon Department of corrections (DOC) has been making major improvements to healthcare for adults in custody (AICs) by bringing in experts, increasing staff, and updating operations.

The Health Services Division has already made several changes to the Therapeutic Levels of Care (TLC) process that remove delays in access to care. Offsite medical scheduling has been reorganized to help address the backlog of needed outside medical trips. DOC is also in the process of switching from using paper medical records for AICs to electronic health records (EHR). The update is a two-phase process and will be fully complete by the end of 2025.

Earlier this year, DOC hired the Falcon Group, a national consulting firm specializing in correctional healthcare, and they have conducted a thorough review of DOC's healthcare system. Falcon has provided DOC with a report of their findings, key observations, and a series of recommendations as part of their report. DOC will take the next 120 days to review the report and determine next steps. We are committed to providing the care you need while incarcerated. Thank you for your patience and understanding. The report will be available on AIC tablets and kiosks.
