Food Services News **Tree Nut, Sesame, Soy, and Milk Allergy Notice!** AICs with tree nut and sesame allergies, who experience anaphylactic reactions, need to report their allergy to Health Services. Health Services already tracks AICs with milk and soy allergies. Food Services just purchased Toasted Oats (Toasted O's), a cereal we have purchased in the past. This cereal is processed in the same facility as tree nuts (almonds), sesame, soy, and milk derivatives (ingredients made from milk). To avoid exposure, you must ask Foodservice staff what dry cereal is being served then self-select by asking for no dry cereal when Toasted Oats are served. During the Fall-Winter 2025-26 dry cereal is on the menu twice weekly. However, institutions may make changes anytime, without notice.

Seasonal Ice Melt Training for Grounds Crews Winter is upon us and soon staff and AIC grounds crews will be spreading Ice Melt to counteract the effects of icy conditions and snow. In the next few months please take note of the Ice Melt training to more effectively help with this ongoing winter project. **TRAINING #1 - Care of Spreader and Ice Melt Product -** ***NOTE* Spreaders range in price from \$150 to \$500*** To avoid breaking spreader, please make sure ice melt is stored in a dry area and bag is closed to avoid clumping. Put on rubber gloves and break-up clumps before use in spreader so spreader blades do not break. To avoid using too much ice melt. Place spreader on the setting that sends out the least amount of ice melt. One cup of ice melt equals one driveway or ten (10) sidewalk squares. More is NOT best! **More training to come. Stay tuned!**
